The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 55-78 are rejected under 35 U.S.C. 103(a) as being unpatentable over Begemann in view of Abe, Sugiura, and Watabe.

The previous rejection still applies.

Applicant's arguments filed 14 October 2003 have been fully considered but they are not persuasive. Applicant argues that the above prior art patents are not suggestive of the invention because Beggeman and Abe are in the light bulb art whereas Watabe and Sugiura are in the semiconductor art. This argument is not persuasive because Beggeman and Abe use semiconductor light emitting diodes and one of ordinary skill in the art would clearly be directed to the semiconductor light emitting diode art for prior art suggestions. Clearly, known semiconductor leds as shown in Watabe and Sugiura would have been obvious light sources in Beggeman or Abe for emitting short wavelength blue light and ultimately producing white light from fluorescence as suggested in the prior art taken together. Applicant's arguments are unconvincing. Arguments that the references do not suggest the "various details" such as the primary and secondary heat sinks, etc. are also unconvincing as Begemann teaches primary and secondary heat sinks in column 3 lines 56-58, for example, "the outer surface of the substrate (3) is made of a metal or metal alloy, thereby enabling a good heat conduction from the LEDs (4) to the column (1)." The prior art teaches and suggests the "details" of the claimed invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
